Jeffrey M Groah* (jeffrey.m.groah@lonestar.edu), Mathematics Department, 3200 College Park Dr., Conroe, TX 77381. *Monument to Error, Perspectives: The Love of Form, and Solution Set.*

Three recent works are presented. The Monument to Error conveys the idea that our successes are founded upon our mistakes. Perspectives: The Love of Form illustrates how perspective can completely change one's interpretation of a form. Solution Set is a striking form that is also the solution set of an inequality in two variables. (Received September 03, 2009)
