1014-53-983   **Amine Fawaz*** (`fawaz_a@utpb.edu`), 4901 E. University, Odessa, TX 79762. *Transversely holomorphic flows on 3-manifolds and singular projectable vector fields.* Preliminary report.

We consider a 3-manifold M equipped with a transversely holomorphic flow $\mathcal{L}$; we study the geodesibility, and the dynamical behavior of projectable vector fields near their singular sets. (Received September 26, 2005)
