David W. Dempsey* (ddempsey@jsu.edu), MCIS Department, Jacksonville State University, Jacksonville, AL 36265-1602, and **Jan O. Case**, MCIS Department, Jacksonville State University. *JSU Math Club—A Community of New Learners and Alumni.*

At Jacksonville State University, our Math Club is open to anyone interested in mathematics, so our members include undergraduates majoring in math, math education, and other fields. Graduate students and alumni are also involved; the interaction with alumni is helpful for undergraduates to gain knowledge of different work environments, especially for prospective secondary teachers, who are the majority of our majors. Depending on student interest, we plan a variety of community-building events throughout the year; we also encourage student membership in MAA and NCTM. We will discuss how we organize some of our events and how we endeavor to involve students at a largely commuter campus. (Received September 26, 2005)
