Fiske Michael** (mfiske@shawnee.edu), Department of Mathematical Sciences, 940 Second Street, Shawnee State University, Portsmouth, OH 4. *Improving Developmental Math Classes: What We've Learned.*

Over the past three years our department has revised its developmental curriculum to be more aligned with AMATYC and CUPM standards. This is a presentation on some of the successful teaching and course management strategies we've implemented during the process. These strategies increase both student participation in class and productive time-on-task outside of class. (Received September 12, 2005)
