1023-20-501   **Jon F. Carlson** and **Eric M. Friedlander*** (`eric@math.northwestern.edu`), Department of Mathematics, Northwestern University, Evanston, IL 60208, and **Julia Pevtsova**. *The exact category of modules of constant Jordan type.* Preliminary report.

We have several techniques to construct modules of constant Jordan type but few results about their classification. Ongoing work is presented whose aim is to elaborate the K-theory of the exact category of modules of constant Jordan type. (Received September 15, 2006)
