**Alexander A. Katz\*** ([katza@stjohns.edu](mailto:katza@stjohns.edu)), St. John's University, SJC of LAS, Dep. of Math & CS, 8000 Utopia Parkway, SJH 334-i, Queens, NY 11439. *On KSGNS-type theorem for representations in Hilbert  $O^*$ -modules.*

For  $A$  be a  $O^*$ -algebra of Sarymsakov and Goldstein, we introduce and study Hilbert  $A$ -modules. Among other things, a KSGNS-type theorem for Hilbert  $O^*$ -modules is proven. (Received September 19, 2012)
