**Brian P. Kelly\*** ([bkelly@fisher.edu](mailto:bkelly@fisher.edu)), 118 Beacon St., Boston, MA 02116. *Using Magic Squares To Design Assignments.*

The main idea is to use “partial magic squares” as a means to encourage students to practice fundamental skills. This talk will discuss how to adapt magic squares to address various learning outcomes. Furthermore, the specific learning benefits of these assignments will be highlighted. (Received September 25, 2012)
