1106-97-1957 **Brian Conrey*** (conrey@aimath.org). *Mathematics Departments hosting MTCs.* Preliminary report.

There are more than 70 Math Teachers' Circles (MTCs) around the country. Some are hosted by Mathematics Departments who supply space, faculty, and a small amount of financial and staff support. We will argue that this is a viable model for a long term sustainable MTC with synergistic effects for everyone involved. (Received September 15, 2014)
