George Hart*, Stony Brook University, Stony Brook, NY 11790. *Math is Cool!*

Geometric sculptures, mathematical puzzles, insightful videos, hands-on workshop activities, and the museum of mathematics in NYC are all means to demonstrate that math is a living, creative, joyful subject—i.e., that Math is Cool! George Hart will present and discuss a variety of these works from his creative output, and show you some giant mathematical artworks, 3D printed mathematical models, and original workshop projects. For examples of his work, see <http://georgehart.com>. (Received April 27, 2014)
