

1106-VS-1589      **Heather Molle\*** (molleh@lakeland.edu). *A Game Theory Course in 14 Days.*

Does your school offer a January or May term? Are you at a loss as to what sort of math class you could teach during such a short semester? Last May, I taught a Game Theory course over just 14 days. In this talk I will discuss the structure of the class, student reactions, and how the class might be modified in the future. (Received September 14, 2014)
