1125-34-2498   **Bo Yang*** (byang@kennesaw.edu). *Upper and Lower Estimates for Positive Solutions of a Sixth Order Boundary Value Problem.* Preliminary report.

In this paper, we consider a sixth order boundary value problem. Upper and lower estimates for positive solutions of the problem are obtained. Sufficient conditions for the existence and nonexistence of positive solutions are established. (Received September 20, 2016)
