Robert A Bosch* (rbosch@oberlin.edu), 291 Oak Street, Oberlin, OH 44074. Recent Progress in Opt Art. Preliminary report.

My ongoing Opt Art project includes TSP Art (continuous line drawings produced by solving large-scale instances of the traveling salesman problem), domino portraits (mosaics made out of complete sets of dominos), and Game-of-Life mosaics. In this talk I will present numerous additional examples of Opt Art. (Received September 16, 2019)
