Jane H Long*, longjh@sfasu.edu. Widening the East Texas Math Teachers’ Circle. 

The East Texas Math Teachers’ Circle has been operating since 2013. In that time, we’ve partnered with federal grant programs (GEAR UP, NSF Noyce), incorporated a Math Circle demonstration at our MAA section meeting, offered professional development and G/T credits for area teachers, hosted Julia Robinson Mathematics Festivals, incorporated Math Circle problems in seminar courses, and strengthened our departmental connections by welcoming pre-service teachers and faculty. In this talk, we will discuss details of these endeavors. (Received September 16, 2019)
