Hoover** (choover@saintmarys.edu), 33 Madeleva Hall, Saint Mary's College, Notre Dame, IN 46556. *A Mathematics Partnership with ESL Teachers: The Second Year.*

The Reach for the Numbers Program, a mathematics partnership between Saint Mary's College and the South Bend (Indiana) School Corporation, is a program for K-12 teachers of English as a Second Language (ESL) classrooms. Currently in its second year, the program is intended to address the mathematics performance of ESL students by deepening the content and pedagogical knowledge of their teachers.

In the first year, the program included a two-week summer workshop, monthly meetings, and periodic classroom observations of the 17 teacher-participants. In the second year, the program included three days of mathematics activities and pedagogical discussions as part of a summer in-service program for a much larger audience of ESL teachers. In our talk, we will discuss our work as the primary organizers for the program and describe the transition in focus from the first to the second year. (Received September 27, 2005)
