Roseanne S. Hofmann* (rhofman@mc3.edu), Montgomery County Community College, 340 DeKalb Pike, Mathematics Department, Blue Bell, PA 19422. *What Are You Thinking? (Use of Polling Devices)*.

Polling devices have become popular in some disciplines. Assessment of the tool by students is positive. This presentation will discuss how this assessment tool is used in mathematics courses at a community college. The positive and negatives from the teacher's point of view will be shared as well as from the administration's point of view. (Received September 16, 2005)
