

1014-P1-1264 **Rebecca Hartzler*** (rhartzler@sccd.ctc.edu), 1701 Broadway, Seattle, WA 98122. *Join the Mathematics Across the Community College Curriculum Project.*

The American Mathematical Association of Two-Year Colleges (AMATYC), invites you to join Mathematics Across the Community College Curriculum (MAC3), a 3-year national dissemination project funded by the National Science Foundation.

MAC3 supports and expands AMATYC's existing commitment to quantitative literacy and creates a national dialogue on integrating mathematics into all disciplines among two-year college faculty. At the core of the program are curriculum development institutes held in retreat settings in Florida and Washington states where faculty of all disciplines work to create classroom ready materials. To date faculty from over 28 disciplines have implemented

This talk will feature a history of MAC in the US, a short DVD of testimonials from current inter-disciplinary teams, examples of successful projects and strategies for recruiting non-math faculty. (Received September 27, 2005)
