Desiree A. McCullough* (desireem@utm.edu), University of Tennessee at Martin, Department of Mathematics and Statistics, 424 Humanities Building, Martin, TN 38238, and **Chris K. Caldwell** (caldwell@utm.edu), University of Tennessee at Martin, Department of Mathematics and Statistics, 424 Humanities Building, Martin, TN 38238. *Personal Response Systems: Pearl or Peril?* Preliminary report.

Personal Response Systems (handheld devices) like the ones used on "Who Wants to Be a Millionaire" are used to collect data relevant to the students, encourage active participation, and to get immediate student feedback. We will briefly discuss our experiences using these devices in our elementary statistics and probability course. (Received September 26, 2005)
