**Yusuf A Muhanna\*** (ymuhanna@aus.edu), Department of Mathematics, American University of Sharjah, Sharjah. *The Dual of a Space OF Cauchy Transforms*. Preliminary report.

Let  $F_\alpha, \alpha \geq 0$  be the class of Cauchy transforms of order  $\alpha$  equipped with the bounded variation norm. The bounded linear functionals on  $F_\alpha$  are characterized and an inclusion between duals is given. (Received September 04, 2006)
