03435-2010. *Programmatic Assessment of Proof Writing*. Preliminary report.

We may be able to assess students' proof writing skills within a course. But can we assess the development of students' proof writing ability throughout a mathematics program? This talk will present a holistic rubric for assessing proof writing, give a report of its use in programmatic assessment, and give thoughts for its future use. (Received September 26, 2006)
