**Gabriela R Sanchis\*** ([sanchisgr@etown.edu](mailto:sanchisgr@etown.edu)), Elizabethtown College, Department of Mathematical Sciences, Elizabethtown, PA 17022. *Mathematica Laboratory Assignments Inspired by the History of Mathematics*. Preliminary report.

Many problems from the history of mathematics can be made accessible to undergraduates through the use of technology. I will discuss several computer lab assignments, inspired by the history of mathematics, that I have designed for use in undergraduate classes, including calculus and linear algebra.
