

1056-H1-818 **Herbert E Kasube*** (hkasube@bradley.edu), Department of Mathematics, Bradley University,
Peoria, IL. *Newton's Principia : What is in it and why should we care?*

Published in 1687, Isaac Newton's Principia Mathematica stands out as a monument to his brilliance. This talk will discuss some of the highlights in this work and well as the influence it has had over the centuries. (Received September 17, 2009)
