Tom Thompson* (thomth@wallawalla.edu), Department of Mathematics, Walla Walla University, 204 S. College Ave., College Place, WA 99324. *Digital Scavenger Hunts*.

A perennially popular math club activity at WWU is a digital scavenger hunt. We will provide examples of a couple of our previous "clue sheets" along with a short PowerPoint presentation of some student "responses." Event logistics including rules, transportation, after-the-hunt activities, and future directions will be discussed. (Received September 08, 2009)
