Eric Cawi (ecawi@gmu.edu), 4450 Rivanna River Way, Fairfax, VA 22030, and **John Ensley*** (john_ensley@brown.edu). *Paleoclimatology*.

In climate change research, it is important to utilize accurate historical temperature approximations. Most methods use proxies such as tree rings to develop their approximations. We study these methods to develop error bounds for the estimates and discover the effect of adding other explanatory variables like carbon dioxide. (Received September 26, 2012)
