David Patrick* (patrick@aops.com). *Ten Years Of Working Online With High-Performing Students.*

Since its founding in 2003, the Art of Problem Solving (AoPS) website has been dedicated to providing challenging curriculum and enrichment materials to high-performing students in grades 3-12. AoPS has over 130,000 members overall, and had over 7,000 online school enrollments in the 2012-13 school year. We discuss some of the aspects of the AoPS approach to online learning that have been most effective for mathematically-talented students. (Received August 30, 2013)
