

1106-D5-2019 **Meghan M De Witt*** (mdewitt@stac.edu). *Calculus comes to life-creating a visual of your math homework.*

We discuss various projects students may engage in to help them realize the beauty and versatility of calculus. This includes everything from baking, to artwork, to physically constructing models to help the student understand the concepts and formulas. (Received September 15, 2014)
