

1106-E1-2521 **David M Strong*** (david.strong@pepperdine.edu). *Helping students see beyond Calculus.*

As the first talk in this inaugural session of Helping Students See Beyond Calculus (and with the hopes that there will be additional work done and presentations given at future sessions in subsequent Joint Meetings), I will discuss what our larger goals and hopes are for exposing more high school and beginning university students to a variety of mathematical ideas and how this session fits into this larger goal. (Received September 16, 2014)
