

1106-Q5-2582 **Janine M Lloyd*** (j1loyd@massbay.edu), 50 Oakland St, Wellesley, MA 02481. *Sustainability Projects in the Quantitative Reasoning Classroom.*

Sustainability is a natural topic to consider when teaching Quantitative Reasoning. This session will present several projects used in a Quantitative Reasoning class in a Community College setting. The topics cover linear regression through an examination of the Greenhouse effect, unit analysis by putting recycling into perspective and modeling through studying product redesign.
