M. N. Nkashama* (nkashama@math.uab.edu), Department of Mathematics, University of Alabama at Birmingham, Birmingham, AL 35294-1170. *Asymptotic Behavior of Solutions to Neutral and Delay Functional Differential Equations*. Preliminary report.

We will present asymptotic behavior results for initial value and initial boundary value problems for delay and neutral functional differential equations. Some special equations coming up in applications will be considered. (Received September 22, 2015)
