

1135-57-1531 **David Shea Vela-Vick*** (shea@lsu.edu) and **Michael Wong**. *A bordered interpretation of Manolescu's unoriented skein exact triangle.*

Manolescu first showed that knot Floer homology satisfied an oriented skein exact triangle. In this talk, we use tools from bordered sutured Floer homology to give a new proof of the existence such this exact triangle. (Received September 22, 2017)
