Jessie C Hamm* (hammj@winthrop.edu), Rock Hill, SC 29732. *Getting Started in Outreach: The Dos and Don'ts for Success.*

Getting started in outreach can seem overwhelming. There's funding, planning, recruiting, and so much more. I was fortunate enough to learn from some amazing mentors during graduate school and bring those skills to my own institution. Before my arrival, our institution had little to no math outreach but I have hosted multiple events each of the 6 years I have been there! I have learned a lot about building a successful outreach program and would love to share some dos and don'ts to success for those new to outreach! (Received September 07, 2020)
