The paper listed below has been accepted for publication in the Journal of Algebraic Geometry. To expedite the processing of this paper, please sign this Agreement form and return it to the American Mathematical Society at the address below as soon as possible. The signed Consent to Publish gives University Press, Inc. (the "Publisher") the permission of the Author to publish the Work. The signed Transfer of Copyright empowers the Publisher to protect the Work against unauthorized use and to maintain the integrity of the Work from a bibliographical and archival standpoint. If there are multiple authors of the material governed by this Consent to Publish and Copyright Agreement, the term "Author" as used in this Consent to Publish and Copyright Agreement refers to each and all of them, jointly and severally.

The Publisher hereby requests that the Author complete and return this form promptly so that the Work may be readied for publication.

Title of Contribution ("Work"):

Author:

1. The Author hereby consents to publication of the Work in the Journal of Algebraic Geometry.

2. The Author warrants that the Work has not been published before in any form except as a preprint, that the Work is not being concurrently submitted to and is not under consideration by another publisher, that the persons listed above are listed in the proper order and that no author entitled to credit has been omitted, and generally that the Author has the right to make the grants made to the Publisher complete and unencumbered. The Author also warrants that the Work does not libel anyone, infringe anyone's copyright, or otherwise violate anyone's statutory or common law rights.

3. The Author hereby transfers to the Publisher the copyright of the Work. As a result, the Publisher shall have the exclusive and unlimited right to publish the Work wholly or in part throughout the World in all languages and all media for all applicable terms of copyright. This transfer includes all subsidiary rights subject only to Paragraph 4.

4. a. The manuscript version of the Work, either before or after peer review, may be reproduced (under license no less restrictive than the CC-BY-NC-ND Creative Commons License) by any means for educational and scientific purposes by the Author, or by others without fee or permission. Without limitation, this means that the Author may post the peer-reviewed manuscript of the Work on the Author's own website, contribute it to the Author's institutional repository, and post it on arXiv.org, all provided that no commercial use and no derivative works are permitted

b. The Author will not license the Work to any database, document delivery service, or other service that charges for access to its contents or charges a fee for the reproduction, distribution, display or transmission of copies of articles on a standalone basis.

c. The Author may use part or all of the Work in the Author's own future publications.

d. In any reproduction by the Author or the Author's licensees, the original publication by the Publisher must be credited in the following manner: "First published in the Journal of Algebraic Geometry in [volume and number, or year], published by University Press, Inc," and the copyright notice in proper form must be placed on all copies.

5. If the Author transfers copyright to the Publisher, the Author will nevertheless have the right to dedicate the article to the public domain after 28 years from the date of publication. Works in the public domain are not protected by copyright and can be used freely by everyone. The Publisher will continue to administer and enforce copyright until receiving written notice from the Author that the Author is dedicating the Work to the public domain. Such notice may be given to the Publisher at any time during or after the 28th year following publication. If the Work is available electronically from the Publisher, it will at that time be flagged as public domain, but the Publisher will have no other obligation to inform the public of such dedication except in response to inquiry. Dedication will not affect the obligation stated above to give proper credit to first publication by the Publisher.

6. This form is to be signed by the Author(s) or, in the case of a "work-made-for-hire," by the employer. If there is more than one author, then either all must sign Consent to Publish and Copyright Agreements, or one may sign for all provided the signer appends a statement signed by all authors that attests that each of them has approved this agreement and has agreed to be bound by it. (In such event the Publisher may deal exclusively with the signer in all matters regarding the Work.)

Date:

Name:

Signature:

Please note: If the Work was created by U.S. Government employees in the scope of their official duties, the Work cannot be copyrighted, and Paragraphs 3, 4, and 5 (other than the provisions requiring proper credit) of this agreement are void and of no effect. The Consent to Publish must nonetheless be signed.
