

1014-Y1-1683 **Constance C. Edwards*** (edwards@coastal.edu), Coastal Carolina University, Department of Mathematics and Statistics, P.O. Box 261954, Conway, SC 29528-6054. *Handheld Technology versus Computer Software.*

We will present the pros and cons of using various calculators and software programs to enhance the teaching of geometry. Primary emphasis is placed on showing why pre-service teachers should be exposed to all available mainstream technology, both handheld and PC software. (Received September 28, 2005)
