Carvalho* (leonardo_carvalho@vm.uff.br), GMA - Departamento de Matemática Aplicada, Rua Mário Santos Braga S/N, Campus do Valonguinho, Centro, Niterói, RJ 24020-140, Brazil, and **Ulrich Oertel** (oertel@andromeda.rutgers.edu), Department of Mathematics & Computer Science, Smith Hall 216, 101 Warren Street, Newark, NJ 07102. *A classification of automorphisms of 3-manifolds*. Preliminary report.

We propose a classification, up to isotopy, of automorphisms of compact orientable manifolds satisfying the Geometrization Conjecture. Automorphisms of handlebodies (or, more generally, compression bodies) appear naturally. Much remains to be understood about some of these. (Received September 25, 2006)
