

1023-G5-1869      **Annala R Kelly\*** (akelly@rwu.edu). *Games and Hands-on Activities in Introductory Mathematics Course for Non-Majors.*

We will discuss the games and activities used to introduce mathematics concepts in mathematics course for liberal arts majors. These engaging activities perk the student's interest in the topic. Moreover, these activities help students to overcome the fear and to discover the mathematical ideas behind these activities. (Received September 27, 2006)
