

1023-R1-1522 **Christopher J Lacke*** (lacke@rowan.edu), Mathematics Department, 201 Mullica Hill Rd.,
Glassboro, NJ 08028. *So, You Think That You Have Problems?*

After teaching Operations Research for eight years, I have started to develop a collection of favorite exercises from a variety of fields within OR. The purpose of this talk is to expose the audience to some of these problems, with a more complete list in a handout, and discuss why these problems are beneficial to the students. (Received September 26, 2006)
