**Mohammad Khadivi\*** (mkhadivi@hotmail.com), M.R.Khadivi, Professor of Mathematics, Dept. of Math., JSU, Jackson, MS 39217. *Impact of Technology on Mathematics Teaching.*

This talk will focus on:

1. the influence of technology and its pivotal—in many cases, indispensable—role in teaching, research, and solving real-world problems;
2. To elaborate on several conjectures which have been created as a result of advances in technology; and
3. To elaborate and make connections between some of the existing mathematical concepts with the aid of technology. (Received September 19, 2009)
